**BOSTON COLLEGE HEAD COACH KATIE KING**

*On general thoughts on the game...*

I thought our team played great. We have played that team before and we know they have an unbelievable goaltender and we knew that was one of the things that's we need to really focus on, in front of that net. I thought our kids did a great job at getting pucks to the net and getting to the net and making her (Genevieve Lacasse) work and making their team work. I am really proud of our kids.

*On recording 61 shots...*

Well one of the things we talked about with the kids is that we need to put a lot of shots on her. Providence, the way they play defensively, they do block a lot of shots. They get in front of a lot of shots. I think that is part of their D-zone coverage. For us, it was just trying to get more shots in, more shots in. We knew they were going to block shots, but in the first game we played them, they blocked a lot of shot, as well. I think we had over fifty shots in that game as well. That was the focus of ours. To really make sure we are getting shots on net, and really trying to get there for the rebounds. Today, I don't think any of them were rebound goals, which is pretty rare I would say. I just thought they worked really hard to continue to get shots and try to make plays.
