Hockey East was again the most well-represented college hockey conference in the Stanley Cup Playoffs with 93 league alumni on the playoff teams. Of the 93 alumni, 40 were active players that appeared on the rosters of their NHL clubs this season and 53 were staff and front office members representing 10 different member institutions. The full list of players and staff is below.

Fifteen of the 16 teams that clinched the playoffs had at least one Hockey East alumni on their roster, and all 16 playoff teams had at least one Hockey East alumni on the coaching staff or in their front office. Of the 127 NCAA alumni on NHL playoff rosters, Hockey East accounted for over a quarter of those.

The 40 active players represented 10 different institutions with Boston University topping the league with eight representatives. Massachusetts claims seven alumni while Boston College holds six. Maine and New Hampshire are represented by five former players. Providence has four, followed by UMass Lowell with two while Merrimack, Northeastern and Vermont all boast one former player vying to etch their name on the Stanley Cup.

The Boston Bruins once again held the title for most Hockey East alumni on their roster with six players from three different programs. The Colorado Avalanche came in second with five alumni from five different programs and the New York Rangers followed with four. In total, 109 Hockey East alumni appeared in at least one NHL game during the 2023-24 regular season, tying the all-time record set in 2021-22 and making four consecutive seasons with over 100 alumni playing at the game's highest level. All 11 current men's member institutions had at least one former player represented. Hockey East also produced nine 2024 NHL All-Stars.

Last season, Boston University's **Jack Eichel** and Maine's **Ben Hutton** won the first Stanley Cup in Vegas Golden Knights history, making the 2023 championship the 13th-straight season a former Hockey East Player has lifted the Cup.
